Gas Offer price from You Save
£5,374* **£856**

5 YEARS INTEREST FREE 'PLUS'

Take advantage of our 5 years interest free monthly payment plan.

Not only can you pay for your new boiler and installation over 5 years, when installed by Guernsey Gas, you can add any or all of the following to your agreement and pay for it all over 5 years interest free.

PLUS

Upgrade Controls

Upgrade your boiler controls with a new digital remote control room thermostat for as little as £125.00 (at the time of installation).

PLUS

Upgrade Radiators

Install TRVs (Thermostatic Radiator Valves) to your existing radiators to control the temperature of individual rooms for as little as £50.00 per radiator (at the time of installation).

PLUS

Vaillant's 5 Year Warranty

The 5 year warranty covers against manufacturing defects and provides for the replacement of defective parts with new parts and any related labour costs, providing that such works are carried out by a Vaillant Engineer or Vaillant appointed agent (such as Guernsey Gas).

For the 5 Year warranty to be valid an annual service must be carried out in years 2 to 5 by Vaillant Engineers or a Vaillant appointed agent.

The cost of this annual service is not included in the warranty.

For FREE advice on a new or existing heating system, solar panels and/or heat pumps, without obligation, call Steve Mauger on 724811 ext. 293. Remember, you can ask your own competent Gas Safe installer for a quotation and still get your boiler at half-price.

FREE HOME ENERGY SAVING PACK**

1 Free Standby Saver

Standby Saver cuts 100% of the standby power used by TVs, Hi-Fis, VCRs, DVDs, PCs and peripherals, saving you up to £37.00 per year. Standby Saver is a six-way electrical extension with two 'switchable' sockets, which can be in Standby Saver control or permanently switched on.

2 Free Smart Meter

The Eco-Eye smart meter very simply connects directly to your electric service and constantly monitors the amount of electricity coming into your home, clearly displaying your usage in kilowatts or in cost and is a visual reminder to think about how much power you are using.

3 Heatkeeper Energy Saving Radiator Panels

In a typical centrally heated room, much heat is lost into the wall behind and above the radiator, the Heatkeeper Radiator Panels reduce this loss and help distribute the warm air around the room.
